Providing Solutions to your Surface Preparation Needs

To fail to prepare is to prepare to fail...

We provide:–

Unrivalled Technical Expertise

The Preparation Group's contracting division PPC, is the market leader in surface preparation and surface removal, with over 250 years of collective management experience in the industry and an unrivalled knowledge of preparation methods and techniques. Established in 1991, we have removed, prepared, polished and cleaned millions of square meters of surfaces.

Line removal & texturing

Vinyl removal

Removing screed

Fully Qualified Operatives

To ensure our customers receive the highest level of service and professionalism to satisfy their project criteria, our highly skilled, experienced site managers, supervisors and operatives are CSCS registered, subjected to rigorous training and regular appraisals, and are qualified to accredited NVQ levels. We are committed to raising industry standards and support the aims and objectives of key industry bodies including FeRFA (The Resin Flooring Association), Construction Skills and CFA (Contract Flooring Association).

Cost Effective Solutions

We use highly specialised equipment incorporating the latest technology, to offer the most cost effective solutions and the highest performance and productivity rates. This keeps project timescales and ultimately site possession, client disruption and loss of revenue to a minimum.

Removing laitence

Innovation in Product Development

We are innovators in product development and have the largest portfolio of environmentally friendly surface preparation, stripping and surface finishing equipment in Europe, from small hand tools to large ride-on machines. We are continually sourcing new solutions and upgrading our range to ensure that we exceed our customers' requirements.

Edge preparation

Edge preparation

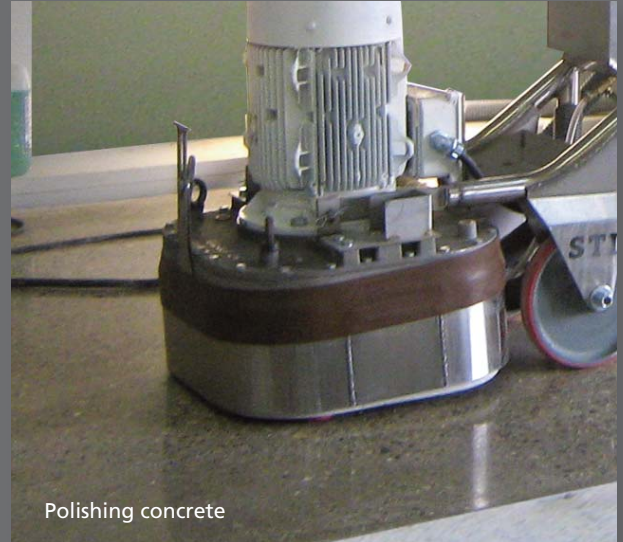

Surface texturing & grinding
