

202DS Compact Vac Unit

Part Number: VAC202DS

Category: Dust Extractors

Product details:

The 202DS Compact Vacuum delivers exceptional filtration levels for its size. Incorporating a high surface cartridge with high filter surface (30.000 cm²), the filtration efficiency is an incredible 1 micron.

The 202DS eradicates dust and solid material from inside preparation equipment. The filter is cleaned by an external shaker handle. The suction inlet also allows the option of attaching disposable bags.

The 202DS has a 20 litre dust bin and 2 motors with a total power of 2.3kW.

Features:

- Robust steel construction
- Powerful motor
- Quick release debris bin
- Swivel castors for manoeuvrability

Applications:

- For use with a wide range of surface preparation equipment including planers, grinders and shotblasters

202DS VACUUM MACHINE SPECIFICATION

| | | | | |
|-----------------|--------------------------------|---------|---------|-----------------------|
| Dimensions | H 1000mm | L 520mm | W 480mm | |
| Power | 110v / 230v | | Weight | 31kg |
| Filter surface | 30000cm ² | | Airflow | 360m ³ /hr |
| Vibration Level | Less than 2.50m/s ² | | Usage | 8 hours + |

Accessories:

Hose connectors, ducting, 'S' tubes, floor nozzles, rubber seals, motor brushes & filters
