

PPC215/415 SHOTBLASTER

Part Number: 215/415

Category: Shotblasting

Product details:

The PPC215/415 model is a very powerful, yet compact and light weight blast machine.

The powerful wheel motor, combined with an optimised separation system and variable speed drive motor, makes the machine highly efficient.

It has been specially developed to achieve a high blasting performance on small to medium areas.

Features:

- Production rates of up to 80m² per hour on concrete
- Simplistic design ensures minimal maintenance and operator training
- Improved reclaim system to produce greater separation of dust from usable shot, providing higher performance rates
- Connects to a standard 3 motor 317 vacuum unit or equivalent, for a dust free, environmentally friendly operation
- Light, portable, with double front wheels for easy maneuverability

Applications:

- Cleaning and texturing concrete, asphalt, stone, tiled and steel surfaces
- Removal of laitence on new concrete
- Paint removal

PPC215/415 MACHINE SPECIFICATION

Dimensions	H 1000mm	L 300mm	W 800mm
Working width	Up to 210mm	Weight	114kg
Motor	4kw		
Power	415v		
Vibration Level	Less than 2.50m/s²	Usage	8 hours+

Accessories & Spares:

Magnetic Sweepers, Liners, Tune-up Kits, Magnets, Seals, Various Grades of Shot
