

LIBERATOR 250 GRINDER

Part Number: 280001

Category: Grinding

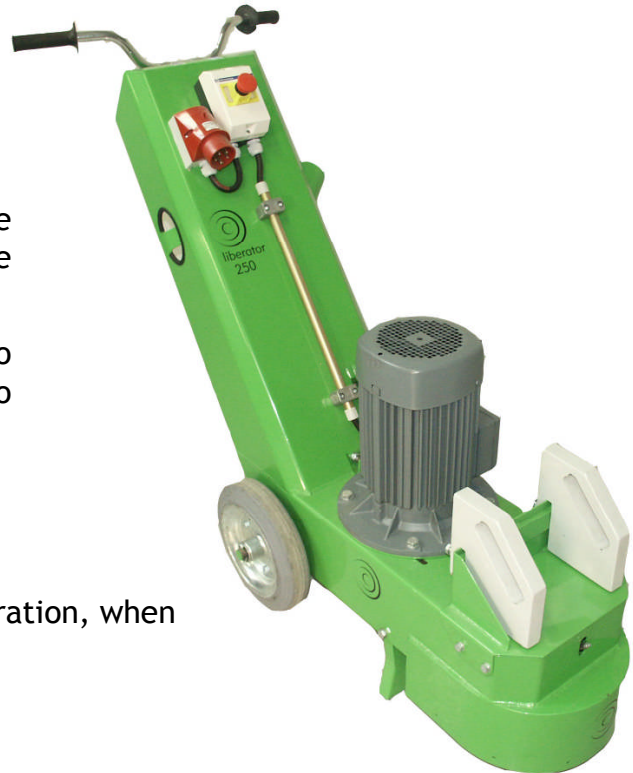

Product details:

The 250 Grinder is the work horse of the range with fast stock removal and is simple to use and very robust.

The exceptional balance makes it easier to use than comparable equipment, leading to less fatigue and increased production rates.

Features:

- Environmentally friendly dust free operation, when connected to a suitable vacuum unit
- Compact and easily transported
- Flexible head control
- Production rates of 30-50m² per hour

Applications:

- Grinding and smoothing concrete, asphalt, stone and tiled surfaces
- Removal of latex, adhesives and paint
- Polishing terrazzo, stone and concrete

LIBERATOR 250 GRINDER MACHINE SPECIFICATION
