

LIBERATOR 600 MULTI-STRIPPER

Part Numbers: TILE 600

Category: Multi-stripping

Product details:

The Liberator 600 Ride-on Multi-stripper is powered by propane, electric or battery driven motors.

The hydraulic controls allow the operator to move the machine forward, lowering the blade or pick and adjusting the cutting angle. Only one easy application is needed, leaving a clean surface ready for any new flooring system.

Features:

- Production rates up to 400m² per hour
- Environmentally friendly 4 cylinder propane gas engine with catalytic converter
- Operation up to perimeter walls eliminates edge preparation
- Operator friendly hydraulic drive for effortless control
- Compact design ensures access through a standard door

Applications:

Removal of

- Sheet vinyl and tiles
- Ceramic and quarry tiles
- Asphalt and bitumous materials
- Latex and levelling compounds
- Hardwood and Parquet

LIBERATOR 600 MULTI-STRIPPER MACHINE SPECIFICATION
