## SCRAPERS

The result of over 50 years of innovation, our range of patented Scrapers by National Flooring Equipment are designed for all multi-stripping projects. They boast unmatched standards for removal rates, durability and safety.

### What is Multi-stripping?

A sharpened blade or pick is selected suitable for the surface to be removed, which is then attached to the front of the Scraper. The weight of the machine is the critical factor, as it is this that holds the blade or pick hard onto the floor to scrape and lift a wide range of materials.

### Choose Multi-stripping for removing:

- Vinyl, carpet and wood
- Ceramic & quarry tiles
- Asphalt, bitumous materials and adhesives
- Latex & levelling compounds
- Flexible membranes
- Thermoplastic line markings
- Screeds, resins & elastomeric coatings

## SCRAPERS

### Complete removal solutions

#### 1. Ergonomic features

Adjustable handles and shock absorbing grips, to reduce operator fatigue whilst optimising time and labour savings.

#### 2. Compact designs

Walk behind models fold down and ride on models fit through standard doorways. Zero turning radius enables access to tight spaces. Easy to store and transport.

#### 3. Powerful & heavy

Hydraulically powered\* motors and removeable weights to increase/decrease power and traction.

#### 4. Wide range of accessories

Blades and angled shanks in different configurations and sizes to suit all applications from ceramic & wood to carpet & vinyl.
