

GRINDERS

TERRCO[®] 2000

GRINDTERR-001

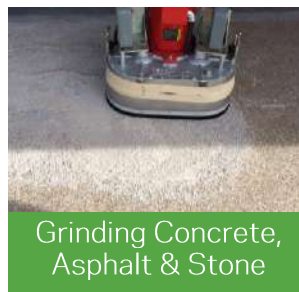

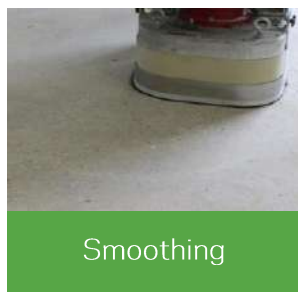

Incorporating over 85 years of design innovation, the 2000 boasts the same high quality & durability as larger Terrco[®] models. Constructed from steel & aluminium for long life & delivering exceptional production rates with uniform, precise results over a wide spectrum of applications. Easy to use wet or dry & variable speed control, direct drive, with quick release diamond system on contra-rotating arms for maximum surface contact.
